Bob and Michelle, I am just forwarding the email I sent to Bill on the 21st. In a separate email I outlined some items for your web page. The web page would make communication easier... a wonderful idea. Your mom, Michelle, did some amazing research for this month's read. I wasn't going to go, but glad I did. Best, Barb

Subject: Color vs. White

Here is our building and some of the whites the landscape committee was visualizing. We eventually went to Gambier Court off of Park Street near the Girl Scout Building, the committee thought this was a neutral compromise for those preferring white. There are about 150 whites that Sherwin Williams offers. If the building goes white we liked "On the Rocks" or "Oyster White". For the trim we looked "Extra White". The committee also looked at the numbering system Ixora has and we were happy that Earth, Wind, and Fire, down the street provided their numbers, which we can custom order also. They would be different than the sample from Ixora. Thanks, choosing a color is another segment for Jerry Seinfeld's series about Florida condo living. Best, Barb.
